

Beatrice Kessi

Aerial Silks & Hoop / Dancer / Vocals

Vita/Credits

Beatrice Kessi works internationally as an aerial artist in combination with dancing and singing. After 12 years classical piano studies in her childhood in Switzerland, she graduated high school of music in 2001. Her passion for dance let her decide for a professional dance study and she graduated at the international dance school university CODARTS in Rotterdam in 2008, finishing with a Bachelor Degree of Dance. She has been working with choreographers such as Tim Plegge, Mauro Astolfi and Beatrice Paoleschi.

Her fascination for the aerial artistry motivated her to develop herself as a poetical aerial silks and aerial hoop artist starting in Rome and then being based in Berlin. Her aerial choreographies are strongly influenced by her skills of music, dancing and singing. In March 2016 she participated successfully the Swiss Talent Casting DGST (das grösste Schweizertalent casted by SFDRS) with her own aerial hoop choreography joining until the semi final.

Since 2013 she is performing with her aerial silks and hoop acts in Variety Theaters such as Friedrichsbau Stuttgart and Et Cetera in Bochum, in Circus, Cruise Ships and galas. She worked for Circus Atmosphere touring in Greece, Circus Olympia in Switzerland and the Christmas Show of Cirque Imagine in Lyon, France. She has been cruising with MS Artania and her next contract will be for CCI Celebrity Cruises until November 2020.

With her innovative singing aerial hoop act „a woman's World“, she has been performing and singing as a newcomer in the German Varietés such as Friedrichsbau Variété in Stuttgart (2014/2015) and Variété EtCetera in Bochum (2016/2017).

„Herausragend: die Luftakrobatik von Beatrice Kessi. Erst an zwei Tüchern und dann mit einem Reifen erschafft sie poetische Dichte per Körperbeherrschung.“ (5.Dez.2014, Stuttgarter Zeitung)

„Eine Klasse für sich ist die Schweizerin Beatrice Kessi, die in luftiger Höhe an langen Seidentüchern oder am Luftring über den Köpfen des Publikums grazil durch die Luft gleitet.“ (6./7.Dez.2014, Esslinger Zeitung am Wochenende)
